The soundtrack for this expansion is extremely good. Every song has its own tone and vibe to it, but no matter what you won't miss the pulse-pounding beat each song has. Extremely fun to listen to, and a wonderful soundtrack as you play the game.. Grief this is good as hell. I want more of these soundtrack. Easily one of the best game soundtracks out there. Up there next to Hotline: Miami and Portal 2. Even includes one of my all time favorite songs, HOME - Resonance.. V A P O R W A V E.  
**Score \u2013 8/10**

**A great soundtrack to play the game to and listen to on its own. If you're into synthwave, vapourwave, French House and VGM, you'll definitely find something to like on this album.**
