English

This is the "This Is Spinal Tap" of videogames, and while I can't decide if it's intentional t's an absolute masterpiece in every sense of the word.

If it's satire, it flawlessly finds it's mark, riding that perfect line of subtlety that keeps you guessing around every corner. If it's NOT satire, then it is a congruent combination of insanity leylines so mindblowingly implausible that it belongs in a museum.

Play this game. Period.. Is it memes? I think it's memes. It's almost fun. It has some kind of charm. But I'm absolutely wasted and I still don't want to play it. At the same time. Really wasnt to see if it's level 2. But I think all the items respond and your champ is a 1 hit death. What do? Almost want to pay for memes. But not memee enough for drunk me to do it. 7/10. Refunded. Too much water.
